FOREWORD

We are pleased to present our second list and special offer of Orchid Plants.

In presenting this list of Orchid Plants, it has been our endeavor to list together a suitable selection of hybrids which would be of interest to the amateur, as well as the commercial grower.

Our supply of Orchid Plants is limited and we have only those listed on the following pages. Therefore, the plants listed are subject to being unsold at the time of purchase.

The demand has been extremely heavy for not only Orchid Plants but cut flowers as well, which made it necessary for us to prepare a list consisting chiefly of divisions.

This list is made up of two sections: One section contains commercial value flowers for the commercial growers and the amateur. The other section lists the Exhibition and Stud Plants for show and breeding purposes.

All prices listed are F.O.B. Fort Lauderdale, Florida. All plants will be shipped out of their pots.

The only plants which we are able to offer at the present time are listed on the following pages.

It will be inevitable that two or more persons will order the same plant. In this event, please state a second choice if other plants are desired. If your second choice has also been sold, we will return your check or money order, as we will not have any surplus stock of those listed.

Cash will be required with all orders. For orders of under \$35.00, an additional packing charge of \$1.00 will be required.

MEMORANDUM

We are pleased to present our report and special offer of

Grand Florida

In presenting this list of Grand Florida, it has been our intention

to list together a suitable selection of plants which would be of

interest to the amateur, as well as the commercial grower.

The supply of Grand Florida is limited and we have only those

listed on the following pages. Therefore, the plants listed are

subject to being wanted at the time of purchase.

The demand has been extremely heavy for our Grand Florida

and our flowers as well, which makes it necessary for us to prepare a

list of plants of other divisions.

This list is made up of two sections: One section contains

commercial value flowers for the commercial grower and the amateur.

The other section lists the Exhibition and Grand Florida for show and

growing purposes.

All prices listed are F.O.B. Post paid, Florida. All plants

will be shipped in the best possible condition.

The only plants which we are able to offer at the present time

are listed on the following pages.

It will be inevitable that two or three plants will not

be available. In this event, please state a second choice if

desired plants are desirable. If your second choice has also been sold,

we will return your check or money order, as we will not have any

regrets about the plants listed.

Good will be repeated with all orders. For orders of value

\$25.00, an additional packing charge of \$1.00 will be required.
